

FLYING BAT

1-Take a flashlight with a round opening.

2-Put it face down on a sheet of construction paper.

3-Draw a circle around the round edge.

4-Cut the circle out.

5- Draw a bat within the cut circle.

6- Cut out the bat with a small cuticle scissor.

7- Tape the circle over the round opening using scotch tape. The circle should lie flat.

8- Go to a dark room with white walls or ceiling.

9- Turn on the flashlight and watch your bat fly!!
